COOKIE POLICY

The hereby informative has the specific purpose of illustrating the types, modes of use as well as providing indications regarding the actions to reject or delete cookies present on your devices, if desired.

In the table at the bottom of this informative it's possible to know, in detail, all the types of cookies that can be installed by pages of this web dominion and, in case of third party cookies, the links to the documents to educate one's self over the methods to prevent the installation of them or remove them even at a later time.

Cookies are computer files or partial data that may be stored on your computer (or other devices with the ability to browse the internet, such as smartphones or tablets) when you visit this website. Usually a cookie contains the name of the website from which this same cookie originates, the "life duration" of the cookie (that is, for how long the cookie will stay on your device), and a value, that usually is a single number randomly generated.

What kind of cookies do we use?

In compliance with the current regulations and the proceedings of the Personal Data Protection Supervisor, the cookies we use are:

Technical cookies: they help improve the website's navigability and the user experience. They can be divided in navigation or session cookies, allowing, for instance, to purchase something or authenticate one's self to access reserved areas, and functional cookies, which allow the user to navigate the website

based on chosen criteria, for instance the language. Pre-emptive agreement by the users is not required in order to install this type of cookies.

First party cookies: these are all cookies of our own property that the website installs directly inside the user's device. First party cookies present in this website are only technical.

Third party cookies: these are cookies designed and handled by foreign controllers (i.e. third parties) in our website. Having no access to these cookies' settings, the user may only exert their rights exclusively through the means provided by the third party storing information (find a summary with all relating references in the table at the bottom).

Enabling/disabling cookies through the Browser

There are several ways to handle cookies and tracking technologies. Editing the settings of the browser, you can accept or refuse cookies or choose to receive a warning message before accepting a cookie from the visited websites. We remind you that disabling cookies in their entirety from the browser you might not be able to use all our interactive functionalities.

If you're using more computers in different settings, ensure that every browser is set in order to match your preferences.

You can remove all installed cookies from the cookie folder of your browser. Each browser provides different procedures for the handling of settings. Click on any of the following links to obtain specific instructions.

Microsoft Windows Explorer
Google Chrome

Mozilla Firefox

Apple Safari

If you don't use any of the aforementioned browsers, select "cookies" in the related section of the browser's guide to find out where your cookie folder is located.

It is possible to oppose the registration of cookies also utilizing the unsubscription platform of IAB (Interactive Advertising Bureau) Europe by connecting to the following address: http://youronlinechoices.com.

Cookies used in this website

In the following table you can find a list of profiling cookies and third party cookies used in the website.

Service name	Type and Purpose	
Google Analytics	Third party cookies allowing the aggregated form analysis of users' visits for informational and statistical purposes.	Link
DoubleClick	Third party cookies that allow the displaying of ads inside the website pages.	Link
Google Fonts	Third party cookies for the usage of fonts from the Google Fonts service.	Link

Given their nature, this table is lacking strictly technical cookies relating to the functionality of the website.
